SUMMARY

A motivated and passionate graduate with a strong foundation in Angular development, seeking an entry-level position to contribute to the design and development of responsive web applications. Eager to leverage problem-solving skills,knowledge of front-end technologies, and a desire to learn and grow in a professional environment.

EDUCATION

M.Sc.(Computer Science)	2022-2023
Pune University	61.25%
B.Sc.(Computer Science)	2020-2021
Pune University	65.36%
HSC	2015-2016
Maharashtra State Board	47.23%
SSC	2013-2014
Maharashtra State Board	73.40%

PROJECTS

AR Infra (Mobile Application)

Real Estate Management Application

Developed a mobile application using Angular, TypeScript, and IndexedDB for property management. The application allows users to register, view, and manage flats, plots, and tenants with dynamic forms, search functionality, and an intuitive user interface. It supports offline data storage to help real estate agents manage property data without internet connectivity.

Key Features

- Home Component:** Central hub for navigation to register and view flats, plots, and tenants.
- Register Flat/Plot Component:** Dynamic form to register flats or plots with conditional fields based on the property type.
- Register Tenant Component:** Form to register tenants with specific fields for flats and plots.
- View Flats/Plots Component:** Display registered properties with search, filter, and edit functionalities.
- View Tenants Component:** Display registered tenants with search, filter, and edit functionalities.
- Custom Components:** Developed reusable Alert and CustomDropdown components to enhance user experience.
- Offline Data Storage:** Utilized IndexedDB for offline data management to assist real estate agents in handling property data without internet connectivity.

Technologies

Angular, TypeScript, HTML5, CSS3, IndexedDB,Tailwind CSS,PrimeNG

GVPL Technologies Animation Studio Website

Dynamic Animation Studio Website with Admin Control

Developed a dynamic, responsive animation website for GVPL Technologies, featuring an admin control panel for content management and a blog section for regular updates.

Key Features

- Admin Control Panel:** Created an admin dashboard, enabling easy management of content such as text, images, and blog posts.
- Blog Integration:** Implemented a blog system where admins can add,edit, and publish articles to keep content fresh.
- PrimeNG Integration:** Utilized PrimeNG components for sleek, responsive UI elements, enhancing user experience and ease of interaction.
- Built a fully responsive design, ensuring optimal performance across desktop, tablet, and mobile devices.
- Applied Angular's animation capabilities and CSS transitions for engaging and smooth visual effects.
- Google Firebase Integration:** Used Firebase for real-time data storage and synchronization, managing website content and user-generated data efficiently.

Technologies

Angular, TypeScript, HTML5, CSS3, Firebase,Tailwind CSS,PrimeNG

PERSONAL VISION

I believe technology is the canvas for innovation, and I aim to paint it with impactful solutions. I'm inspired by challenges and find joy in crafting user experiences that simplify life and bring ideas to reality.

SKILLS

Front-End Development

Angular,TypeScript,Javascript,HTML & CSS,Chartjs,PrimeNg,Angular Material, Tailwind CSS

Design and Tools

Bootstrap,Photoshop,Font Awesome, Visual Studio Code,GitHub

Soft Skills

Problem-Solving, Communication, Attention to Detail, Time Management, Team Collaboration

PERSONALITY, INTERESTS, AND HOBBIES

- Passionate about building userfriendly and impactful web applications.
- Enjoy problem-solving and finding creative solutions for technical challenges.
- Dedicated to learning new technologies and applying them to real-world projects.
- Thrive in collaborative environments and value teamwork for achieving goals.

Hobbies

- Playing cricket, which helps me develop teamwork and strategic thinking.
- Reading tech blogs to stay updated on emerging trends.
- Exploring creative design ideas and experimenting with web layouts.
- Watching documentaries and movies that inspire creativity.
